Measuring Scale
(reference only)

HOW TO MEASURE

A JONES TUBE

There are two ways to measure the overall length of a Jones Tube:

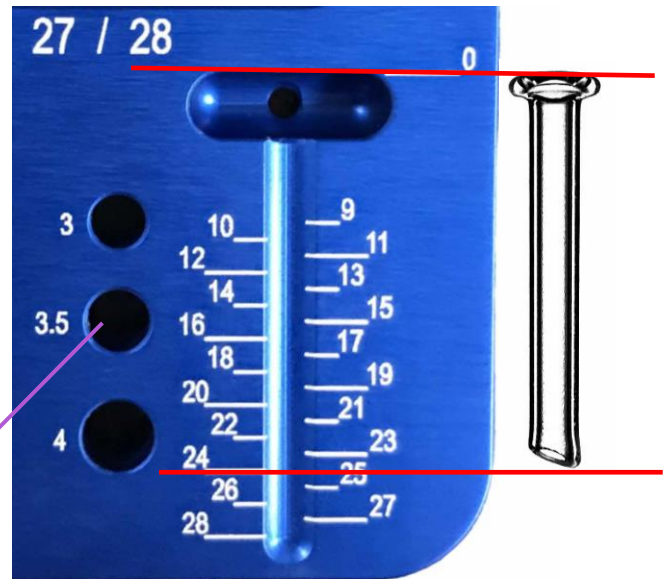

Measuring an Angled Jones Tube

- All Jones Tubes are measured with a caliper prior to shipping.
- When measuring a Jones Tube with angle the flange end is aligned flatly against one jaw of the caliper and the caliper is closed until it just touches the beveled end of the tube.
- The Jones Tube below is a 19mm Jones Tube with angle.

Using the Blue Anodized Sterilization Tray or Measuring Scale (90000-0005, 90000-0007)

- Always make sure that the flange end is touching the end of the measure scale marked with the zero.
- The beveled end of the tube should be rotated so that the very extreme beveled tip of the tube is aligned with the side of the scale that aligns best with the tip.
- The tolerance for the Jones Tube is +/- 0.3 MM.
- The Jones Tube in the photo below is 24mm

These three circular holes are used for reference to measure the top of the Jones Tube (flange). Calipers can also be used for sizes beyond this scale.

TERMS AND CONDITIONS

1. **Shipping:** FOB origin, typically UPS ground, unless otherwise specified within two weeks of order. No shipments via US mail due to losses and an inability to track shipments.
2. **Payment terms:** Net 30, 1.5% per month over 30 days is preferred. We do accept VISA or MasterCard for a 3% processing fee.
3. **Overseas Payment terms:** All overseas orders will need to be paid in advance with a credit card. No shipments will be sent until payment is received.
4. **Return policy:** Because we wish to ensure that our customers receive only newly manufactured Jones Tubes, we will not accept returns on these products. If you find you have ordered incorrect product please refuse our delivery prior to receiving your order from our shipper and before opening the box. Otherwise, we are unable to accommodate returns. Items other than Jones Tubes may be returned for credit if in new condition.
5. **Preferred carrier:** UPS
6. **Additional Charge:** Customers requesting special shipping instructions outside of Gunther Weiss Scientific's "preferred carrier" shall be assessed an additional handling charge for their request.
